SUMMARY OF THE REASONS FOR DECISION:

The magazine *Anal Extasy 3* features sexually explicit activity both in a written and visual format. The sexual activity includes vaginal intercourse, fellatio and cunnilingus. The magazine is classified as objectionable because it contains images of a female teenager participating in sexual activity with an adult male. The depiction of sexual intercourse between the teenage female and adult male acts to legitimise the sexual exploitation of young persons by placing it in a magazine depicting sexual activity between adults. The publication therefore promotes and supports the exploitation of young persons for sexual purposes by presenting sexual activity between teenage females and adult males as a normative form of behaviour.

The magazine *Anal Extasy 3* is classified as:
Objectionable.
